

PRODUCT SPECIFICATIONS

ECO-STAIN

ECO-STAIN is a waterbased stain designed to give rich deep colors on wood with little or no grain-raise.

Application: ECO-STAIN can be brush, rolled or sprayed. To prevent the stain from lapping apply very liberally which will allow sufficient time to wipe the excess off in the direction of the grain. On wood species that tend to blotch use ECO-STAIN conditioner first.

Dry Time: ECO-STAIN is designed to dry quickly yet give sufficient time to work. Product must be completely dry before another coat is applied. Normal topcoating can be done in 15 to 30 minutes.

Clean-Up: Clean and flush all equipment with water immediately after use.

E.S.C. Coatings are designed for the professional and therefore a certain level of knowledge is assumed. When in question always do a test area. For questions please call 619-297-4421.

Warning!!! *As with any product that is being sprayed into the air or applied in other manners, always use adequate ventilation and proper breathing attire.*

First Aid: *In case of eye contact flush with plenty of water for 15 minutes or more and seek medical attention. Wash off skin with soap and water. DO NOT INGEST. If this occurs seek medical attention immediately.*
